**Certificate / To whomsoever it may concern**

We have installed 4,00,000 litres per day SIBF system for treating domestic wastewater generated in our hospital and medical institute. We are using the entire treated water for our lawns and gardens. The operating cost of the system is very low. Also, by implementing this system, we are able to save large quantity of drinking quality water.

We appreciate the efforts of M/s. Energy Tech Solutions Pvt. Ltd. for developing such an eco-friendly treatment system and wish them success in their future endeavours.

 **Eng. Engineers.**
